Amino acids and peptides, absorption of (P), 854

Amitriptyline and tranylcypromine in liver diesase, 697

Ammonia and *p*H, faecal, during lactulose administration in comparison with other cathartics, 859

——, blood, high, disturbances of brain metabolism due to, effect of ornithine alpha ketoglutarate, in dogs, 551

Amylase, salivary concentration, effect of secretin and pancreozymin (P), 850

Amyloidosis, development of, associated with congenital dilatation of intrahepatic bile ducts, 604

Anorectal pressure studies in diagnosis of Hirschsprung's disease, clinical evaluation of, 138; *Erratum*, 500

ANTHONY, P. P., and MCADAM, I. W. J.: Helminthic pseudotumours of the bowel: thirty-four cases of helminthoma, 8

Antibodies, circulating, to cow's milk proteins in ulcerative colitis, 796

—— in gastrointestinal tract, demonstration and function of, 483

—— raised to pure natural and synthetic hormone in radioimmunoassay for secretin (P), 849

Antidepressants. *See* Tranylcypromine and amitriptyline

Antigen, carcinoembryonic, 1000

——, ——, in gastrointestinal cancers (P), 838

——, ——, in serum in normal subjects and in colonic carcinoma, radioimmunoassay of, 390

——, hepatitis-associated. *See* Hepatitis-associated antigen

Antigens, leucocyte, in Crohn's disease and ulcerative colitis, 438

Antrum, acidification, effect on gastric secretion stimulated by pentagastrin (P), 843

——, gastrin cells, in Zollinger-Ellison syndrome, immunofluorescent, cytochemical and ultrastructural studies of, 501

——, G-cell hyperplasia and hypergastrinaemia, in Zollinger-Ellison syndrome (P), 848

——, histology of, and plasma gastrin concentration, in achlorhydria (P), 320

——, innervation, retention of, effect on reduction of gastric acid and pepsin secretion after vagotomy, 894

Aphthous ulceration, recurrent, lymphocytes from patients with, effect on colon cells in tissue culture, 387
